

Medina County All Hazards Advisory Committee

June 9th, 2021 Regular Meeting Minutes

Members Present

Bill Disbrow
Jason Davis
Rob Haas

Bob Linder
Christina Fozio
Larry Walters

Attendees

Matt Sturgeon
Ben Nau

Bob Linder called the meeting to order at 9:31 AM.

Rob Haas motioned to approve the May 12, 2021 minutes with clarification that they should show he attended the meeting via Zoom; as seconded by Jason Davis; and approved by all.

Old Business

Christina Fozio updated the group on the RFQ for architectural services. The RFQ was readvertised because we only received one submission from the first advertisement. Christina said we should receive more than one submission by the deadline of June 11th.

Ben Nau updated that the boat trailer wheel bearing repairs were completed last Friday. EMA received the titles of ownership. He will transport the boat to Burgess in Loudonville, OH on Friday, June 11th for hull repairs.

Ben Nau reported the FIU camera and accessories are ordered and will ship on June 13th.

Chatham Rescue Truck – This discussion was tabled at the previous meeting. Rob Haas said space for the truck is an issue. Christina said we cannot accept a truck when we don't have a place to store it. Christina suggested that Chatham Township consider transferring the truck to the Sheriff's Office.

New Business

Christina informed the group that she has been updating Chippewa Lake Village Council on the building project. EMA will participate in the Chippewa Lake July 4th parade.

Bob Linder relayed an inquiry from Chuck Cali to house a UAV at Brunswick Hills FD to have a drone located in the north of part the county. After a short discussion, the group will continue the topic for the next meeting.

Jason Davis asked for an updated list of All-Hazards assets and their current location. Christina Fozio will provide that.

Bob Linder commented that the recent water recovery in Wadsworth Township went well. Also, the recent CART activation and UAV Team call in Wadsworth went well. Dispatch was made aware of the error in which the hazmat team was initially paged instead of the UAV team.

Bob thanked EMA for attending Wadsworth's First Friday event.

Larry Walters reported that the Rope & Confined Space Team members completed technician class on Sunday. He commended them on completing the challenging scenario they were given.

Christina Fozio relayed a suggestion to build a relationship with the ski team. The Water Team could attend their developmental team trainings on Chippewa Lake on Thursdays.

Next meeting: July 7th 1:00 PM

Christina Fozio motioned to adjourn the meeting at 9:59 AM; as seconded by Jason Davis and approved by all.
